District News

An array of correspondents in all principal towns and villages of central and northern Alberta today Bulletin readers informed about district happenings. The Bulletin carries district news briefs daily.

CITY'S FIRST 1951 BABY

MISS 1951 is titled claimed for four-pound, 12-ounce Katherine Alice Maloney. First baby born in this city, Jan. 1, 1951, New Year's mite weighed in at just five seconds past midnight, thought to be record for crowding new year. She is daughter of Constable and Mrs. William Maloney, 9523-92, Avenue 14, also hold title as smallest New Year's baby in city annals. (See story, Page 11.)

Russia Says She's Ready For Talks About Germany

LONDON, Jan. 2.—(CP)—Russia today said she is ready for Big Four foreign ministers talks in London, Paris or Moscow with Germany first and foremost on the agenda.

Britain, United States and France suggested Dec. 21 that top delegates of the Big Four nations at Lake Success, N.Y., prepare an agenda for ministerial talks aimed at the elimination of the causes of present international tension throughout the world.

This came after Russia Nov. 3 failed for a Big Four conference to discuss joint demilitarization of Germany.

The Soviet reply was in the hands of the three western governments before any public announcement was made in any of the capitals concerning its contents. Diplomatic officials in Washington said little hope that the terms of the Russian reply would lead to the top-level meeting which officials in London and Paris were more hopeful.

Red Columns Near S. Korean Capital

Six Chinese Communist Armies Carve Salient In Allied Lines

By Olen Clements

TOKYO, Jan. 2.—(AP)—Two enemy columns, striking along the main roads to Seoul, today were reported only 14 and 17 miles from the impervious South Korean capital.

The columns were in the van of six Chinese Communist armies which carved a salient in the allied lines.

Gen. Douglas MacArthur's headquarters said one column was 17 miles from Seoul and only five miles from Uijongbu, the road hub which holds the key to Seoul.

A field report said a second column was even closer. It was said to be 14 miles to the northwest of Seoul. It was moving down the main highway and railway from northern Korea to Seoul.

Outnumbered United Nations forces, after retreating up to 11 miles in zero weather, manned new defence lines and awaited the next day.

MacArthur's headquarters quoted North Korean claims of a breakthrough in a broadcast that his war effort had "superior and sympathetic" aid from China, Hungary, Bulgaria, Czechoslovakia, Rumania and Poland.

MacArthur said Kim Il Sung's statement indicated clearly "the general of this war."

CONTACT LOST
The Allied position in South Korea before at least 42 enemy divisions was so swift that contact was lost with the main force.

Coast Storm Wrecks Line
VICTORIA, B.C., Jan. 2.—(CP)—A violent wind and rainstorm fanned across Vancouver Island today. Winds reached 50 miles an hour.

Parts of Victoria were blacked out between 8:40 and 9 a.m. when power was cut to certain sections to lessen the load when a 60,000 volt feed line from a substation was damaged by the wind.

The cutouts were made to some areas to ensure sufficient power at coastal points, such as hospitals. Some telephone wires and trees came down, but there were no reports of widespread damage. The waterfront escaped damage.

Vancouver snow fell early today but disappeared a few hours later.

Publisher's Son Max Aitken, Weds At Montego Bay
KINGSTON, Jamaica, Jan. 2.—Max Aitken, son of British publisher Lord Beaverbrook, was married yesterday to Violet Dethlefsen.

Aitken and his bride, the daughter of the Hampshire Dethlefsen, were married in the Presbyterian Church at Montego Bay, the site of Lord Beaverbrook's winter residence, Cranmore.

They spent the holidays with the Canadian-born publisher and participated with Lady Jean Campbell, Beaverbrook's granddaughter, in giving a big Christmas party for hundreds of Montego Bay folk on the winter home of Cranmore.

Fire Damages Stove Factory
KANSAS CITY, Mo., Jan. 2.—(AP)—Fire that raged out of control for four hours caused damage estimated by a city engineer at between \$1,500,000 and \$4,000,000 at the Fluorocarbon Stove Company today.

The flames were kept fighting the blaze. The cause of the blaze was not immediately determined.

Tugboat Strike Ties Up Shipping
LOS ANGELES, Jan. 2.—(AP)—A strike of tugboat crew members yesterday tied up shipping in the Los Angeles-Los Brea harbor.

James of the strike were not disclosed.

Rent Control Decision By Alberta Due Soon
Decision on whether Alberta will impose rental control regulations is expected shortly after Dominion government rental control plan is announced.

An act providing for a modified form of rent control by the provincial government was passed at the last legislative session, but has not been taken into effect. Federally imposed rent control regulations are scheduled to be withdrawn March 31, but no definite date has been made so far by Ottawa authorities.

In Alberta government circles it is believed the provincial act will be applied if federal restrictions are withdrawn.

THREE DIE IN FIRE AT FORT CHIPLEY

Fire, highway collision and car exhaust fumes claimed the lives of six Albertans during the long holiday week-end. A seventh—an aged Edmontonian—died in hospital Sunday from injuries received Dec. 22.

DEAD ABE:
James Mann, eight, Fort Chipewyan; Victor Mann, 13, Fort Chipewyan; Donald Fergus, 19, Fort Chipewyan; George James Page, 28, Calgary; Lorraine Hay, 14, Calgary; Mrs. Edna Minnie Baxter, 31, Calgary; Frank Natvig, 62, Salvation Army Home.

RCMP are investigating the mystery of a Fort Chipewyan fire which swept through the Hudson's Bay Co. post there New Year's Day and trapped the two Mann boys and Fergus. Their charred bodies were recovered later from the ruins of the razed building.

Witnesses at the little settlement 300 miles northwest of Edmonton were powerless to prevent the flames from eating away the heart of their community. Monday morning was left of the post but the basement.

PARENTS AWAY
There were no witnesses to the tragic deaths of the three boys to escape from their burning home. Their parents, one of them the HBC factor in Fort Chipewyan, were at the other end of the settlement at the time.

The fire was discovered an hour after it started and RCMP Corporal J. Routledge led villagers in a desperate 10-hour fight to quell flames and prevent the fire from spreading. Not until 3 p.m. were they able to venture into the smoking ruins of the company post and remove the remains of the three victims.

Edmonton-bound for the New Year's holiday, a Calgary man and girl both died and a third Calgary passenger was injured when their car was rammed from behind and knocked into a ditch at Wetaskiwin by a Greyhound bus, also north-bound.

The injured car passenger, Regina Kay, 16, is in good condition in Wetaskiwin hospital.

She was travelling with her sister and George James Page when their car stopped on the highway in the path of the heavy bus. Lights of an approaching car reportedly blinded the driver and he did not see the parked auto in time to avoid the collision.

Page was instantly killed and Lorraine Hay died a few hours later. No one was injured on the bus.

Besides Mrs. Baxter, Alex Grayson of Cochrane, Alta., was a victim of the deadly car-bus collision. His death boosted Edmonton's funeral toll for 1950 traffic fatalities to 15.

Canada Will Expand Atomic Production
OTTAWA, Jan. 2.—(CP)—Tyde Munster, House announced today that Canada will build a \$200,000,000 atomic reactor "much bigger and better" than any other in the world.

This means, Mr. Munster said, that Chalk River should in time be put on a paying, commercial basis by means of greatly increased supplies of plutonium, and radioisotopes will be produced.

DEATH CHARGED TO PARTY LINE

KANSAS CITY, Mo., Jan. 2.—(AP)—A mother said two women on a party line prevented her from calling firemen to save her baby from a fire that destroyed their home today.

The flames swept the home of Mr. and Mrs. Thomas Milton. Firemen were unable to reach the child, Carol Anne Milton, 29 months old.

The 21 boys and girls gave ages ranging from 18 to 25, except for three, who said they were 17 and one 18-year-old. Del. Val Taylor and policeman Mr. Nabel Mayberry interviewed them at the station and found the girls ages were not all correct.

John Chosko, charged with supplying the liquor, appeared in police court today and was remanded until Jan. 9.

France Bans Russ Publications
PARIS, Jan. 2.—(AP)—The French government today banned the sale or distribution of five Soviet Russian publications throughout French territory.

The publications, listed in the official journal, are "The Soviet Union," "Soviet Literature," "The Soviet Woman," "Ogoniok," and "The Crocodile," "Ogoniok," which means "Little Flame," and "The Crocodile," are Russian humor magazines usually dedicated to publication of anti-American and anti-western cartoons.

Mastermind In Korea May Be Top Russ Chief
BY STAN SWINTON
TOKYO, Jan. 2.—(AP)—Soviet Mastermind Grigori K. Zhukov may be the mastermind in the Communist war against the Korean Republic, according to a report from a Soviet source.

The report was made to a Soviet source, who said that Zhukov is the mastermind in the Communist war against the Korean Republic, according to a report from a Soviet source.

'Hex' Puzzle Starts Today In The Bulletin

The Bulletin "Hex" puzzle starts today in the Safety Club column on the comic page.

The puzzle comes in ten parts. Each part is to be cut out and solved. The completed puzzle consists of ten hexagons which are to be fitted together as all pieces have.

We challenge you children, and your parents, too, to tackle this new puzzle.

It is progressively simple, simply following in its return to fit together. A small box can do it with the help and aid of the Bulletin will be on the small box.

Sombre Yoke Belclouds World New Year Capers

By the Canadian Press

Most of the world observed a sombre New Year's Day with the yoke of the big guns of the Communist offensive in Korea resounding in capital cities around the globe, but the Red China capital of Peking reported dancing in the streets.

On both sides of the Iron Curtain, official greetings of the New Year called for peace in 1951 but pointed ominously at the danger of the other side as the parties rejoiced for the new year.

The weather was mild throughout most of continental Europe, but in England it was frigid and cheerless. The blackness of night settled over London at non-line. Snow fell. A new batch of ration and other restrictions helped to cheer the lid on the customary seasonal celebrations.

Across the channel celebrations were more in keeping with tradition. Parisians drank champagne. West Berlin, undisturbed in its uneasy position between the two camps, whopped it up in night clubs.

Chalk Eggs and the United States played their peaceful intentions for 1951 but speeded their plans for rearmament. President Truman, working about his yacht Williamsburg on his State of the Union address to Congress, said he hoped 1951 would "bring peace to the world."

The U.S. Congress, in unprecedented New Year's Day session, passed an emergency legislation.

In Canada, the celebration was quieter this year.

Montreal's night spots were escorted closed by Premier Maurice Duplessis. As in Canada and other Canadian cities, most celebrating was done in house parties because of the Sunday.

Night dances opened at midnight.

Canada Expands Atomic Output

(Continued from Page 1)

use by hospitals, industry and universities.

Mr. Howe said the new reactor or radioactive pile won't alter Canada's position as a major atomic power, but it will strengthen the country's atomic structure for peace or war.

SALE IN DISAP.

Disposal of radioactive material is a highly secret matter. It is the feeling here that Canada hopes to sell the plutonium to the United States. She already sells the U.S. atomic radioactive element, uranium, which occurs naturally and is treated in reactors to produce plutonium, a better agent.

A reactor is the nuclear power plant where the fission or splitting of the atom goes on under controlled conditions. It is the key instrument for the atomic power, and the new reactor, says, will give Canada an all-round device that will allow her to go in whatever research circumstances it suits.

Chalk River's present N.S. reactor, a big, complex cylinder 34 feet high, is capable of scientific activity and studies that can't be duplicated elsewhere in the western world. It will still be used and will be valuable, but will be replaced by a new and far superior pile based, as is the present reactor, on the heavy-water principle.

FINISHED IN 1952

Construction will begin in late summer. It will virtually double the capital outlay at the six-year-old project on a twenty-five per cent of the capital. The new reactor should be completed probably some time in 1952.

The cabinet has approved the new construction. It will be referred to Parliament soon in the form of a \$30,000,000 measure. Parliamentary approval is considered certain.

Mr. Howe predicted the reactor will do three things:

1. It improves the fruits of years of study at Chalk River—will "keep Canada in the forefront of advancing knowledge in the important field of scientific research" and allow her to retain her "outstanding position."

2. Provide facilities for attacking some of the fundamental problems involved in the great problems of breeding and tapping the atom for the tremendous powers existing within it.

3. Assure enough plutonium and allow the supply of radioisotopes to catch up with the demand.

4. Guarantee the permanency of Canada's atomic position. While she has had only one important reactor there was always a chance that a breakdown would bring the whole Chalk River project to a halt.

START ON POWER

Some attention at Chalk River told reporters there recently that the reactor Canada builds after this last one will really make the start on Canada's use of the energy for power purposes. The plant made with the one coming up should open the way.

Mr. Howe said the new reactor will be a heavy water-moderated reactor just as the N.S. pile is. That means that heavy water brought from Trail, B.C., will be used as the controlling influence in keeping the splitting steady from erupting into explosion.

But it is Chalk River's third reactor. The first was the ZEEP, still in use, but only as a minor partner in the second, the NRX, which has the world's highest flux density or outpouring of nuclear isotopes called neutrons, the operators of the atom.

St. John, N.B., and elsewhere told stories from the harbor greeted the New Year bells and the Red. A heavy mantle draped the festivities at Halifax.

Throughout the west public parties started after midnight. Pairs were in with a note of some sorrow.

In Toronto theatres opened after midnight, but bars and clubs were closed.

Puerto Rico was dominated the official message sent out by world leaders.

Gen. Douglas MacArthur, commander of the First UN army assembled, told a Japan which has remained war that it soon may have to return, in self-defence.

MOSCOW MESSAGE

"If international lawlessness continues," the Soviet government chief said, "it will become your duty within the principles of the United Nations to concert with others to quell freedom, to maintain law to rebel from."

In Paris, Premier Rene Pleven urged more sacrifices for rearmament. "The interests of peace," Moscow sounded a note of brotherly love for the American people and protested that the Soviet Union had been misinterpreted "as haters of the American people."

"The Russians," said the Moscow message, published in the Soviet press, "are not only a universal knowledge that the Soviet people greet the new year with the spirit of the great American people and their glorious freedom-loving traditions."

Jim Kennedy told police to arrest the Soviet spies, leaders of friendship, saying:

"The Soviet people never confuse the American people as a whole with those who seek to plunge all of us into a terrible and horrible confusion of a new war."

In Germany, U.S. and Soviet security authorities began the New Year on an unexpectedly friendly note. General of the Army Vasily Chuikov, Russian commander in East Germany, surprised the U.S. press by accepting an invitation to a New Year's dinner at the U.S. embassy.

RENDER DIES

Austria's traditional New Year's celebration was overshadowed by national mourning for the death of Emperor Karl Hensler, the 80-year-old emperor, who died in Vienna.

In Copenhagen, King Frederik IX, died of a heart attack. The king's death was announced by the queen.

Wendy Wood, leader of the Scottish Patriots' Association, said the New Year message yesterday when asked to comment on the stone mystery.

"I hope it is the year in which Scotland will get her parliament. When the stone is laid to the stone mystery, it will be a great day for Scotland."

At Sandringham, England, the King returned through the snow to his home. The Queen to Sandringham Church.

West German Chancellor Konrad Adenauer said the New Year's message yesterday when asked to comment on the stone mystery.

Singing Scotsmen Serenade Stone of Scone Sleuths

LONDON, Jan. 2.—(CP)—Hopeful police, alert for any tip that might uncover the stolen Stone of Scone, watched thousands of grinning Scotsmen sing in the new year with special zest in jam-packed Piccadilly Circus.

A Scot in full clan regalia—kilt, sporrans and bagpipes—led the singing and dancing at the foot of the Stone of Scone statue in the center of the great square.

A rock stood awkward at the center of the square, where thousands of Scotsmen, dressed in kilts and sporrans, had gathered to sing and dance.

Shouting from a few minutes later, the Scotsmen sang and danced. The Scotsmen sang and danced. The Scotsmen sang and danced.

NO SIGN OF IT

If hundreds of police in and around the square had anything to say about the "Coronation Stone Mystery," there was no sign of it as dawn broke.

The 40-pound block of sandstone, which disappeared in 1850, was the last of the Stone of Scone.

SOME DRIVEN BACK

Alfred plans of all categories took a heavy blow on Monday by the air action.

Plots of one group of 400 Shorthorn cattle were driven back by the air action.

Flies of Navy Skyrocket bombers in the air, aircraft carrier, the Navy reported their dead-ly low level attacks forced Red

troops to retreat from a ridge six miles south of Hengshui. That it is 60 miles northwest of Seoul.

The Communist drive drove into the west flank was described in a field dispatch by AP Correspondent John Randolph as amounting to "a major pushback and a big gain in the defense line across South Korea."

MacArthur's headquarters said that, in addition to the thrust south of Hengshui, Red forces had penetrated to six miles northwest of Uijongju and to Kaoyang. The thrust north of Uijongju is within 20 miles of Seoul. That Kaoyang is at a point 30 miles northwest of Seoul.

NOT CRITICAL

Between nine and 19 Chinese and North Korean army corps—up to 30,000 men—were on the battle line. MacArthur said there were six Chinese army corps and that prisoners have been taken from a seventh army corps last known in action around Hengshui in north Korea.

That is the area where the Chinese have been fighting since the outbreak of the Korean war.

Flames lit the day Monday night as engineers of retreating UN divisions tried to burn the North Korean army.

Correspondent Randolph, in a dispatch from the front north of Seoul, said the Red thrust had threatened to "split the western front wide open."

Ailing U.K. Figure Gets Top Award

Sir Stafford Cripps Created Companion of Honor On List

LONDON, Jan. 2.—(Reuters)—Sir Stafford Cripps, who wrecked his health in his efforts to solve Britain's economic problems, has been awarded one of the most esteemed honors the King can bestow.

The former chancellor of the exchequer—popularly known as Mr. Ailing—was created a Companion of Honor in the King's New Year honors list published yesterday.

The announcement came with the news that Sir Stafford Cripps, who served as Britain's first deputy prime minister, had been awarded the Companion of Honor in the King's New Year honors list published yesterday.

The Companion of Honor was set up by the late King George V for men and women who have distinguished themselves in the work of national importance.

It has been held by Winston Churchill since 1952 and by Prime Minister Ailing since 1945.

Cripps resigned as Britain's economic chief Oct. 15. He is now in London, where he is working on an internal mission.

Mr. Ailing's honors list was also awarded to Sir Stafford Cripps, who served as Britain's first deputy prime minister, had been awarded the Companion of Honor in the King's New Year honors list published yesterday.

Red Artillery Off For Indo-China

HONG KONG, Jan. 2.—(AP)—The independent newspaper Wai Yee Po said today that the Chinese Red artillery regiments left Canton Thursday for Indo-China.

It said the troops are equipped with 75 Russian-made powerful guns and 40 medium-weight Russian-made tanks.

ORDER OF MERIT

The Order of Merit, restricted to 40 members, was bestowed on Sir Alexander Cadogan, who headed Britain's delegation to the United Nations until last summer.

The king appointed three new members to his Privy Council, which advises the monarch on high constitutional affairs.

They are: Sir Alexander Cadogan, Australian high court judge who served as United Nations mediator in the Kashmir dispute.

Baron MacDonald of Gwensay.

Indonesia Makes Cabinet Decision

JAKARTA, Indonesia, Jan. 2.—(Reuters)—The Indonesian cabinet has agreed "in principle" to amend the statute which established the Netherlands-Indonesian union, the Aneta news agency reported here today, quoting well-informed circles.

The decision was reported late after the failure of the recent Hague talks between the two nations on the future of western New Guinea.

HAPPY NEW YEAR messages outnumbered trouble calls on police telephone New Year's Eve. Constable Bill Fedoruk on switchboard had cheery reply for everyone as police enjoyed quietest New Year's Eve in decades.

FIRST CUSTOMER for police patrol wagon New Year's Day only got as far as the jail house door when constables Dave McIntosh and H. M. Thomas turned him loose with a stern "don't go back." Not a single "guest" was added to the jail population during the night.

TOO TIRED to celebrate were the wanderers who sought shelter in the police station New Year's Eve. Many asked to be locked up. Police refused such requests but permitted them to use the station corridors until morning.

Six Months Jail Is Fate Of 'Red-Handed' Burglar

A Calgary man who looted a hotel room Dec. 20 and was caught as he ran from the building, received a six-month jail term in police court today.

Raymond Gibson pleaded guilty to retaining a wallet, a compact and two rings from Mrs. Marie Holmsted of the New Edmonton Hotel.

He also was sentenced to three months for vagrancy. Sentences will run concurrently.

Gibson, a guest at the hotel, told court he was broke, couldn't find a job and was "fed-up." He saw the police in the hall and took it.

He was spotted leaving the hotel and caught in the late, police said he dropped one of the rings in the late and tried to hide the second between the seats in the car.

A second man, Paul Sadowski, no fixed address, was jailed for three months when he pleaded guilty to vagrancy. Police said they found him in Gibson's room when they went to search it.

NEW PRESIDENT of General Alumni Association of University of Alberta for 1951 is Dr. A. C. McGowan, superintendent of University Hospital. J. C. Kenneth Macdonald was elected vice-president. Dr. McGowan, vice-president since 1948, succeeds B. W. P. Ford who resigned recently. Election of other officers will be held later this month.

DAY BY DAY

City Mumps Total Down To 17 Cases

Edmonton's slight mumps outbreak has subsided.

From 34 cases the week before last, the number slipped back to 17 last week, according to the weekly report issued today by Dr. G. M. Little, medical health officer.

When he released the previous week's figures, Dr. Little said the 34 cases were "not alarming," and could not be regarded as an epidemic.

J. Garland, Canada's minister of survey, will open the meeting in the basement of St. Alban's church, 8th street and 10th avenue, Jan. 4 at 8:35 p.m. under auspices of St. Alban's Men's Club.

There were no Alberta King's Council appointments this New Year's, the attorney-general's department said today. Some are expected next year.

Air Force fire trial answered a call to the officers' mess at North West Air Commandant at 11:00 today this morning to extinguish a small fire in the floor.

As soon as the lower part of the fire plug and was quickly extinguished.

Three \$50 awards will be made this year to drivers of city-owned vehicles with the best safety and operating records.

Acting Mayor Bill Hawtrell today told the awards will be made to drivers of city trucks, city cars and B.T.S. buses.

Low operating costs, five mile insurance of traffic rules, economy, and freedom from accidents will be basis on which judges will be carried out by city engineers and B.T.S. officials.

Prizes will be awarded shortly before Christmas.

Interior finishing of the two second floors of Alberta's new \$120,000 Administration Building is now under way.

Plumbing system for the ground floor and basement is being installed, and interior walls on the first floor are being erected.

As soon as the lower part of the building is completed, the upper floors will be enclosed and the interior work there will start.

The building, costing an estimated \$120,000, will be completed by 1952.

FOR VARSITY

Alaska Seeks Students From Northwest

Students from western Canada are wanted at the University of Alaska.

Starting this month, students from Alaska, British Columbia, Saskatchewan and the Yukon will be exempt from paying non-resident tuition fees at the northern college.

Similar privileges will be extended to Oregon, from Washington and Arizona, to encourage them to go north for their education.

"In the international picture, the boundaries between our northern geographical areas are becoming less of a barrier, due to joint military operations and exercises, and we feel that a closer relationship in education and friendship would be worthwhile," said Andrew Neiland, president of the university board of Regents, in making the announcement.

The new ruling will save students from western Canada, Washington and Oregon \$100 in their first annual tuition fees.

There is a strong community of interests in the Northwest, and we shall be pleased to have students from Canada and the States attend the University of Alaska," said Dr. T. M. Moore, president of the university.

The building up of the north coast is a challenge to young people and those who have a sense for the tasks of developing a new country will like the spirit that prevails at the University of Alaska.

Kiwians Install Head

Low W. White, who was elected 1951 president of the Kiwanis Club, today installed his new post.

Mr. White, an official of the Imperial Oil Co., has been a Kiwanis member for the past 12 years. He succeeds W. T. Comb.

The installation was made by Walter H. Sprague, member and also past-president.

Other officers installed at the dinner meeting today were vice-presidents, Clarry Jackson, Guy K. Morton, and Herb Scott.

Ed. F. McCarver, secretary-treasurer, had been re-elected. New directors for the 1951-52 term were William Hawrelak, acting mayor, Frank Finn and Murray Hamilton.

Directors are: Len Barona, Walter Blake, Merv Hutton, Rod Pyle, Les Poley and Jim Hiddell.

Northern Areas Show Profit From Fertilizer

Recommendations and suggestions by the Alberta Fertilizer Committee were announced today by D. A. Lee, minister of agriculture.

Field trials showed that a profit was made from fertilizer in northern areas of Alberta, and substantial increases were reported in southern western Alberta.

In the case of the south-western areas, Alberta, fertilizer did not, on the average, produce profitable yield increases.

LIQUID AND DUST
Use of liquid fertilizer for grain crops was not recommended by the committee. This fertilizer, advertised by the manufacturer as liquid, is grain before seedling, did not produce any significant yield increases in the 1950 trials in Alberta.

A "fortified" 2-4-0 dust, claimed to contain plant food and said to be higher priced than ordinary 2-4-0 dust was tested during the year. Seven trials reported in the committee, the fortified dust gave

no better than the ordinary 2-4-0 dust. The committee suggested that providing further testing farmers would be unwise to use a trial basis.

A revised edition of the circular "Use of Fertilizer in Alberta" is being prepared on the basis of the committee's findings and will be released for distribution shortly.

The committee is appointed under the direction of the minister of agriculture of Alberta.

DODD'S KIDNEY PILLS
Many people never seem to get a good night's rest. They turn and toss—there is an "irritation" when it may be their kidneys. Healthy kidneys filter poisons and acids from the blood. If they fail and poisons build up, you feel tired, irritable, and you don't get a good night's rest. If you don't rest well, you can't do your best. Dodd's Kidney Pills help the kidneys so that you can get a good night's rest.

'DEAD MAN' PASSES QUIET NEW YEAR DAY

John Lempiere, the man who literally "came back from the dead," Dec. 15, was reported out of danger at the advent of 1951.

The elderly Edmonton abaker passed a quiet New Year's Day.

He is still in hospital, but authorities said today there was no cause for worry in his condition. He was being treated for a heart attack.

Lempiere was pronounced dead when he failed to respond to a stimulant after a heart attack. He was being taken to a mortuary in an ambulance when attendants noticed a faint flicker of life and rushed him back to the hospital.

Farmer Makes Claim For Well Fire Losses

Admiralty of the famous Atlantic City No. 2 oil well fire of 1949, a \$149,777 claim has been filed in Supreme Court here.

Peter Haysch, Leduc, has filed suit against Leduc Consolidated Oil Ltd. He claims the company failed to turn over \$12,500 as his share of \$100,000 collected from Atlantic Oil Co. for damages to Leduc's adjoining property during the period when Atlantic No. 3 ran wild.

Haysch also asks \$1,500 for damage to his land caused by Leduc Consolidated during the period they leased it from him, and \$977, which he estimates as wages the company owes him for work Haysch did in restoring his land from damage caused by oil drilling operations.

AGREEMENT CLAIMED
The plaintiff states in his claim that Leduc Consolidated had agreed to pay him a 12% per cent royalty for "all oil, petroleum, naphtha, gasoline, natural gas or other products removed" from the leased land.

Leduc Consolidated brought suit on the lease next to Atlantic No. 2. When the latter well went wild in 1949, Leduc Consolidated lost production and oil shiver in 1948, 1949, 1950 and 1951.

Haysch claims 12% per cent royalty of this sum, stating it "represents the loss of all oil, petroleum, naphtha, gasoline, natural gas or other products" removed from his land.

LAND DAMAGE
Haysch claims an agreement was also made between him and Leduc Consolidated by which the company was to compensate him for damage to his land during the well-drilling operations. He restored part of the land himself, he states, but the service still remains damaged.

He asks \$977 for wages and \$1,500 for the 30 damaged acres. Duncan Johnson and Co. are acting for the plaintiff.

Kettle Drive Nets \$5,262

Salvation Army collected \$5,262 in the Christmas kettle drive in Edmonton this year.

This represents an increase of \$1,735.40 over last year's drive. First day of the drive was conducted by United Commercial Travelers branch in Edmonton.

He asks \$977 for wages and \$1,500 for the 30 damaged acres. Duncan Johnson and Co. are acting for the plaintiff.

KIDNEY ACIDS Rob your Rest..
Many people never seem to get a good night's rest. They turn and toss—there is an "irritation" when it may be their kidneys. Healthy kidneys filter poisons and acids from the blood. If they fail and poisons build up, you feel tired, irritable, and you don't get a good night's rest. If you don't rest well, you can't do your best. Dodd's Kidney Pills help the kidneys so that you can get a good night's rest.

Bawlf Man Named Head Of Institute

Rev. J. Selmer Stoebe of Bawlf has been elected president of the Canadian Lutheran Bible Institute.

Meeting at Camrose, the group heard a year-end report read by Pastor T. W. Maskelard of Central Lutheran Church, Edmonton.

It was decided the institute's annual summer camp will be held this year at Hastings Lake, about 25 miles southeast of Edmonton.

Following board members were elected: Rev. J. Arvid Vikman, Edmonton; Rev. J. Sage, Donalda; Rev. Stirling Johnson, Ryley; Dr. Olson, Edmonton; and John Larsson, Stander. Viggo Mollerup, Camrose, and Rev. L. C. Thompson, Calgary, were named treasurer and secretary, respectively.

TEACHER NEEDED
Total registration of students for the past year was 48, representing five different synods of the church.

Dr. A. M. Vinje told the group that a third fulltime teacher is needed for the institute. He also proposed starting of a book store and construction of a boys' dormitory.

Any information regarding the institute is being sought by the synodical office in Red Deer, Denmark, in connection with the estate of Jens Christensen, his step-father.

Jensen was the proprietor of a store in Denmark, the report said.

Christensen is believed to be working as a carpenter at a mine west of Edmonton on the Coal Branch.

Any information regarding the whereabouts should be sent to the Danish vice-consul in this city.

Where the Pan American Highway crosses the Equator a few miles north of Quito, Ecuador, the traveler can stand with one foot in each hemisphere, and shiver in an overcoat because of the altitude.

RYLEY THANKS YOU
Town council and all residents of Ryley wish to express their thanks to all persons who have helped in the recent fire in our town. Our thanks are especially directed to the following towns, their citizens, fire chiefs and crews for their help. These towns are: Vegreville, Camrose, Holden, Viking, Tofield, Edmonton and our own town of Ryley. Special thanks also are expressed to the Canadian National Railway whose assistance was invaluable. Thanks also are expressed to Provincial Fire Commissioner Bridges.

Had it not been for your help much greater damage could have resulted in our fire, in fact we may not have had a town left standing.

Again We Thank You!

Too Much, Too Little

Under a new federal policy of immigration, Canada will advance to prospective immigrants part of the cost of their transportation to this country which must be repaid within 24 months.

Immigrants will be required to contribute not less than \$30 of their own money to the expenses of their journey to Canada.

The plan is not a good one because it will bring thousands of new settlers to this country under the burden of debt. It will settle these people in this country in the tradition of debt.

Moreover, the manner in which new settlers will be required to bind themselves to the same employer until enough money has been paid for their wages to repay the federal government is to unpleasantly like bonded labour.

Clearly this scheme of assisted immigration gives far too much or far too little.

Legalities and Illegalities

It is thoroughly absurd, of course, that it has taken the Edmonton city council something like 40 years to pass a bylaw making it illegal for unscrupulous persons to sneak through the rear doors of transit vehicles.

But it is equally absurd that in the charge of transit vehicles have been given no authority, apparently, to eject nuisances and objectionable persons from their buses and cars.

We are not aware of the legal rights and responsibilities of bus drivers and motormen in this matter. But we are aware that in most other Canadian cities, notably Toronto, Winnipeg and Vancouver, it is no uncommon thing to see a transit employee refund the fares of drunk and quarrelsome persons and compel them to leave the vehicle, by force if necessary.

Particularly on festive occasions, there

If the immigrant is not the right type for this country, it is a gross extravagance to spend a five cent piece on him.

If he is the right type for this country and if he will make a useful and solid citizen, the government would be getting a bargain if it paid all his transportation expenses with no demand for repayment at all.

Productive citizens are beyond price because production is the only possible source of a country's wealth.

Unproductive citizens are an expensive liability at best.

One thing is certain, new citizens cannot be bought at so much a pound on the hoof, like cattle. But that, it appears, is just one of the ways in which the government is being deceived.

What is needed above everything else is exceedingly careful screening of every potential settler. If a man passes all the tests, no sum is too much to establish him usefully in Canada.

are too many of these breaches of the peace in Edmonton buses and trams.

Sometimes it is children, quite old enough to know better, who rush up and down the aisles, jostling elderly persons and setting up a deafening din.

Sometimes it is hilarious gentlemen who begin by being amusing and end by being disgusting.

There is no reason why transit patrons should have to tolerate any of these nuisances.

And while the city council is passing legislation to prohibit cheating on fares, it would be well to pass a little more legislation instructing drivers to toss unscrupulous and objectionable nuisances out on their ears.

A bus driver at all times should have the legal right to maintain order and reasonable quiet in his vehicle.

Radio Service Once Tried From Train to GTR Station

radio. The real reason, of course, is expense.

Would the benefits which two-way, continuous communication give between authorities be worth the extra expense?

The layman, like myself, is inclined to think that the view is that of course, we are not in a position to know the answer.

But a study of the view of the heavy cost of life and property of train wrecks, the public is entitled to ask railway managers for an authoritative survey of the whole question.

There was a time when few ships carried wireless—even after it was established as a practical proposition. It took the shocks of several disasters at sea before it was decided to equip submarine warfare to make wireless standard equipment.

Trend Is More Radio Links

The trend of the times is towards more and more radio communication. Two-way radio is becoming more and more common in many cities already.

It seems strange that the railway should not have the facilities of two-way communication—should be the last of the public carriers to have this frequent exception which will inevitably occur.

However, he said that "it is freely granted that admission of some 15,000 students to a comprehensive physical and mental test program, this providing for the frequent exception which will inevitably occur."

No Appeasement for Mr. Nehru

It is edifying to learn from English press dispatches that, when the Commonwealth prime ministers begin their conference in London, they will greet India's Mr. Nehru with special tenderness because Mr. Nehru comes to the conference as "the authentic voice of Asia."

"The main effort at the conference," says one source, "may be concentrated on winning India for the cause of Asia."

Since Mr. Nehru comes to London with a budget of demands for economic assistance to raise the standard of living for the Indian people, it might be more appropriate to refer to the gentleman, not as the "authentic voice of Asia," but as the authentic voice of blarney.

Mr. Nehru has not demonstrated great wisdom in his recent behaviour during the Korean crisis. That wisdom may decrease since the death of the late Mr. Nehru, most intelligent of the group of theorists who led India to premature and very hazardous independence.

Mr. Nehru would certainly be most unwise if he were to arrive in London demanding economic concessions to remedy India's poverty, which arises chiefly from an inordinate and devastating birth rate, as the price of leading Asia away from Communism.

Commonwealth prime ministers would be most unwise to subscribe to any such blatant extortion.

Mr. Nehru should produce before he said.

If he were to announce in London that he would be willing to pass a little more legislation instructing drivers to toss unscrupulous and objectionable nuisances out on their ears.

A bus driver at all times should have the legal right to maintain order and reasonable quiet in his vehicle.

Jim Coleman

ST. CATHARINES, Ontario—Jack Sullivan, the sports editor of The Canadian Press, performed a monumental task in conducting these polls to select the outstanding sporting figures of the past 50 years. However, he has ignored our man Stimers and this is a slight that we cannot accept with-out making a very strong protest.

We're starting a collection to purchase a full-sized thunderbolt for our man Stimers who, without a question of doubt, qualifies for the title of "Noisiest Radio Announcer of the Half-Century".

Lisea, ya crumb, Stimers was broadcasting hockey and lacrosse games over CKR for two years before the residents of St. Catharines became aware of the fact that the radio station didn't have any transmitting equipment—Stimers could be heard as far as Buffalo or when the wind was blowing in the right direction.

Resford Wigglesworth Stimers, whose happy beliefs have been much to convince the world that "St. Catharines Is The Miami Of Canada," is approximately the size of Minnie The Marmalade, and since he went on a diet about a year ago, he has about no alarmists! But he has developed a love of turkey waffles around his neck. It is known among his a hefty and "The Lung" for fairly obvious reasons.

In a profession which abounds in eunuchs, Stimers stands out like Luna Turner in the Notre Dame backfield. It is unique and, although he has received lucrative offers to desert St. Catharines, he prefers to remain in this city where his devoted loyalists have earned him friends and enemies on approximately a 50-50 basis.

At that, it is likely that, with the exception of Foster Hewitt, he is the best-paid sports announcer in Canada because, only last week, his sponsor (Thompson Products) gave him a hefty and well-desired increase.

His loyalty to St. Catharines some times times him into some admissible heights. It is rumored that Stimers, who insists upon referring to his section of the station as "The Banana Belt," employed his own quaint method of announcing a cold wave. On the cold day of one winter, he greeted your correspondent at the St. Catharines depot clad in white slippers, a baner, a straw hat and carrying a tennis racket.

Subsequently, he suffered a mild attack of pneumonia but he insisted that his ailments were nothing more than a headache.

The rather remarkable delivery of Stimers on the jolly old wire line is due to the fact, undoubtedly, he operated with a blood pressure that was approximately 200 per cent above normal.

Stimers never "broadened" in the accepted sense of the word—he simply expressed his opinions as to the merits of the various teams which were likely to be defeated by his own team.

"Why," Mr. Stimers would belittle, in his urticant of a hockey game, "that dirty scoundrel should get a penalty for tripping? They should give him life!" And Mr. Stimers would swing right off the booth, carrying his microphone and thousands of listeners with him.

If Stimers ever has been guilty of slightly arrogant conduct, it is only when he assumes the role of the Canadian Hockey regatta for an international audience. When he will inform the radio audience exactly that "The Leafs are leading by three feet but the Buffalo look is gaining steadily."

Between races one afternoon, a couple of correspondents pulled Stimers' remarkable bicyclic and, after exhaustive tests, announced that all you could see through them was a map of the Niagara Peninsula which was painted on the glass at the far end.

"The Lung" always has been at the wheel of the St. Catharines Press, increasing income gains in the heat of the summer.

Stimers throws himself in and out of the booth with such enthusiasm that, almost vertiginously, he is oblivious to the presence of his co-announcers in the arena below him.

He shakes off his jacket. Then he tears off his tie. In the heat of play, he has been known to take off his shirt, trousers and suspenders, and, dressed only in his shorts, the loyal citizens of St. Catharines are accustomed to such displays but Stimers never has taken his act on the road as far as Cornell and Orangeville.

There is a report to the fact that, during one game, he disrobed so usual but forgot that he hadn't consumed any underwear before leaving home that day.

A comical-sounding but a nasty demand.

And, on behalf of our man Stimers, we reassert it strongly. Why, it's simply a good, good old and you characters who wish to subscribe to the fund for him can start inquiring on the left.

DRIVE ON Calgary Stampeder goal is made by Flyers' Roy Heimer (white sweater) during last night's tussle at Gardens. Heimer scored one Edmonton goal but Stampede won contest 5-3. Stamps in picture are, from left, Bob Gilhooley, Russ Dertell, Don Clarke and Stan Devito.

Late Explosion Captures Rose Bowl for Michigan

PASADENA, Calif., Jan. 2.—(AP)—Michigan, facing defeat for the first time in the Rose Bowl, exploded for two touchdowns in the final minutes of the game yesterday and whipped a bruised and broken California eleven 14-6 in the 37th edition of this post-season football classic before 100,000 fans.

Trailing by six points and with little more than 10 minutes remaining, halfback Chick O'Brien sent the Wolverines whirling 80 yards to the score and then Michigan's conversion artist Harry Allen, won the game to all intents by booting the extra point.

The touchdown conversion thus handed the Golden Bears their third straight loss against the Big Ten in the Rose Bowl and brought the Big Ten conference its fifth straight victory in the Rose Bowl with the coast league.

The second Michigan touchdown, the final three minutes was an anti-climactic and a gift, but earned on three line plunges for points.

Alla added his second extra point and Michigan fans a moment later, swarmed on to the turf and took possession of the goal posts.

California took its slouped lead early in the second quarter on a beautiful pass for 39 yards, from quarterback Jim Morrison to right end Ed Cummings.

But that margin was not enough for the third straight time in the Rose Bowl, the fourth-quarter line attack California sent them out of this famed old football arena in defeat.

Two years ago Northwestern scored a touchdown in the first period, and a year ago Ohio State's goal field in the final two minutes was the heartbreakers' goal.

California, the slight betting favorite and coach champion, dominated the game in the first half. Michigan had the ball only four times for only one play in one instance, and merely to run out the clock at the end of the second quarter in another.

But the Wolverines came back after the intermission and burned the seven with 16 fine drives in four of the halves. It was a typical come-from-behind performance for a Michigan team which waited until the final game of the regular season to win the Big Ten title.

Commercial Loop To Pick All-Stars
An all-star team will be chosen from the Commercial Hockey League in the regular season with CHL's semi-final playoffs in the spring it was announced last night by director Fred Martin.

CHL last night met at the Recreation Commission building. League is also willing to answer any challenge put up by country teams for exhibition games. Teams desiring games with CHL squads are asked to contact Fred Martin, 2605-66 Avenue, for scheduling.

League's winter regular scheduled league games are to report out soon to press and radio.

FAN FARE

And, on behalf of our man Stimers, we reassert it strongly. Why, it's simply a good, good old and you characters who wish to subscribe to the fund for him can start inquiring on the left.

Stampedeers Start 195 With Victory

Calgary Stampedeers are getting in the habit of starting the New Year right. Coach Fred McDaniel's Stampedeers won Edmonton's injury-riddled Flyers 5-3 in a Western Canada Hockey League contest at the Gardens before a New Year's day crowd of about 5,500.

The Cowboys have lost only one New Year's day game since the WHL was organized six years ago. They dropped a 5-2 decision to the same Flyers on New Year's Day.

Since then they have got away to a good start in the New Year.

Last night's win enabled Calgary to break a second-place tie with Saskatoon, who should begin the 60-year-old day.

West Europe Sees Big Defence Year

Rearmament Drive for 1951
Largest for Peacetime Year

LONDON, Jan. 2.—(Reuters)—The countries of Western Europe entered 1961 with plans either drawn up or in active operation for the biggest rearmament drive of any peacetime year.

Moved by the urgency of a worsening international situation, these countries are calling up more men for the armed forces, voting big sums for defence and re-organizing economies barely recovered from the Second World War.

Britain is taking second place only to the United States in the amount of money she is preparing to spend on defence. She and other European countries in the Atlantic Pact have budgeted rises on the \$100,000,000 to keep the new armies of the West supplied. Britain's share of that is \$10,000,000.

Today there are about 1,700,000

men under arms in eight countries of Western Europe with a total population of 180,000,000. All except Britain were occupied and fought over in the Second World War.

DEFENCE PICTURE

Here is a country-by-country picture of what Europe's defences are like and what they plan to be:

Britain: Three months ago 780,000 men were under arms. Today that figure is probably slightly higher. It includes about 80,000 serving in Korea, Malaya, Hong Kong and the Middle East. Twenty-two divisions will be built up.

Last year the period of service was increased from 18 months to

two years. The government is committed to spending \$100,000,000 on rearmament.

France like Britain, France last year increased her period of compulsory military service from 18 months to two years. This is expected to step up conscripts from the present 400,000 to 717,000 by the end of this year. This included the 150,000 French soldiers fighting Vietnamese rebels in Indo-China. The plan is to bring army strength up to 21 divisions of 80,000 men by 1963. The French assembly has just passed a record military budget of \$214,000,000.

Belgium: The period of compulsory military training was doubled in Belgium from one to two years. The call-up age was set back from 20 to 19.

Between 45,000 and 50,000 men are under arms. The government hopes to raise the figure to 150,000 in 1961.

The Netherlands: 36,500 men will be under arms this year. Within four years, the Dutch air force will have 21 squadrons of fighters. The navy will have one aircraft carrier, two cruisers, 12 destroyers, six escort vessels, 48 minesweepers, about 100 planes and a brigade of marines.

ITALY, TOO

Italy: The Italian government is spending \$200,000,000 on a three-year military defence plan aimed at bringing military forces up to 12 divisions—175,000 men. This month the air force is expected to reach treaty strength of 200 first-line fighters. Work has begun on nine new warships. This year the government plans to make \$400,000,000 worth of arms.

Norway: There has been no lengthening of the one-year conscription period in Norway, but last month the army called up special categories and announced that men awaiting discharge would be retained. The government will spend \$15,000,000 for defence during the next 2½ years.

DELIVERING BULLETIN's big 70th anniversary issue on Saturday was no problem for newboys Johnny Regier, 956-73 avenue (foreground) and Bob MacFarlane, 9842-72 avenue. Two boys used horse and pony to carry papers to subscribers. Other Bulletin newboys used dog-leashes to deliver 96-page edition on their routes.

Three Capitals Receive Reply Note From Russia

WASHINGTON, Jan. 2.—(AP)—Diplomatic officials held out little hope today for new top level talks between the western powers and Russia. They said what appeared to be acceptance of the idea by Moscow was hedged with restrictions which this country, at least, could not accept.

The fact that Russia had replied to western proposals for such talks disclosed yesterday following receipt of a Kremlin note in Washington, London and Paris.

Officials here said the reply evidently meant that Russia is not ready for a broad discussion of the many points of friction between here and the West.

Although the text of the Russian note was not made public, dispatches from London quoted diplomatic sources there as saying it included these "requests" generally deemed unacceptable to the West.

PRAGUE DECLARATION
Acceptance of the Prague declaration, which served notice that the Communist-controlled world would not tolerate rearmament of Western Germany.

PROMPT ANSWER
At Paris, Russia's prompt answer to the West's bid for a Big Four meeting raised new hope that the world's life can be eased around the conference table rather than on the battlefield.

The French foreign office was cheered by the Kremlin's favorable reaction to the idea of a Big Four meeting that would talk about all the world's hot and cold wars are ready to talk things over.

One high-level source said "there are some disappointments" in the Soviet message, but none so great as the cheering factor that the door is now open to settle by diplomatic means the problems that beset the world.

Wall Street Journal Bought by Company
CHICAGO, Jan. 2.—(AP)—Dow Jones and Company, publishers of the Wall Street Journal have purchased the Chicago Journal of Commerce. William F. Kerley, executive editor of Dow Jones publications, said the Chicago financial newspaper will retain its title and the world edition of the Wall Street Journal will be added.
